It is known that one of the urgent tasks facing teachers of general secondary schools is not only to teach students a profession, but also to bring them up as a competent person. In order to achieve this goal, the educational process must cover all forms and methods of education.

President of the Republic of Uzbekistan Sh. Mirziyoyev: "Today, along with all other fields, science needs to be raised to a new level. Indeed, it is difficult to solve current issues facing society without science. One of the priorities of our state is to provide comprehensive support to this field and scientists"<sup>1</sup>.

For 2022-2026 Goal 41 in the Decree of the President of the Republic of Uzbekistan on the Development Strategy of the New Uzbekistan<sup>2</sup>: Create an additional 1.2 million student places in the public education system through the introduction of the National School Development Program. It was noted that in 2022-2026 years are implemented for the program of the development 217 schools about "Barkamol Avlod" children. Therefore, based on the goals and objectives of this program, the staff of educational institutions should organize their activities properly.

1. Also, in order to organize spiritual and educational work in general secondary schools, the deputy directors for spirituality and enlightenment should create the following departments, each of which should develop individual annual or monthly work plans, on the basis of which they work.
2. Association of Socio-Political Humanities.
3. Board of group (class) leaders.
4. Council of Minors
5. Youth Union Community Center
6. Work Team Council.

They should also monitor daily, weekly, and monthly work plans and work collaboratively on a regular basis. Today, the main goals of spiritual and educational work in general secondary schools are<sup>3</sup>:

- To instill in the minds of young people a sense of respect for the motherland, the heritage of our great ancestors and the creative work of our people today;
  - To cultivate in students a sense of home, family, homeland, awareness;
  - To inculcate and strengthen students' national consciousness, national pride and sense of pride;
  - Educate the younger generation in the spirit of commitment to our great traditions, values and a firm belief that they are the owners of a bright future;
  - Fostering a sense of commitment and responsibility to students;
  - Teach young people to be faithful to their beliefs and goals. To do this, it would be effective if the following work is done.
1. Develop a plan of spiritual and educational work between teachers and students in collaboration with the leader and public organizations.
  2. Decree of the President of the Republic and the Government on spirituality and enlightenment and wide discussion of decisions in the community, to determine the tasks arising from them.
  3. Republican Public Center for Spirituality and Enlightenment, establish close cooperation with relevant departments in the city and district.
  4. Conducting regular seminars and conferences on the work, experiences, tasks, with the participation of the Deputy Leader for Spirituality and Enlightenment.

It would be expedient to carry out educational work with teachers and students in general secondary schools in the following order:

- In teaching all subjects, the educational process should focus on educating the student spiritually and enlightened;
- Organize the following spiritual activities with all students that are held regularly after school every Wednesday:
  1. Wednesday - Study of the works of the President, decrees, government decrees and laws of the republic.
  2. Wednesday - A study of world economics, politics, and the masterpieces of literature and art.

3. Wednesday - moral and enlightenment readings, with extensive use of the Holy Quran, Hadith and prominent works of religious science.
4. Wednesday is a study of market economy relations.
  - The staff of the Department of Spirituality and Enlightenment is responsible for organizing this enlightenment work. They should provide lesson topics, plans and programs, lesson schedules, lecturers, foreign speakers:
  - Management should also pay hourly salaries for speakers and facilitators, and ensure that they are fully encouraged:
  - To give a national spirit to each subject in the organization of curricula and educational activities;
  - Organizing trips to historical monuments, educational institutions, art enterprises and buildings erected during independence;
  - Revitalization of the additional courses of local lore and history of our Motherland;
  - Conducting roundtable discussions with students of social sciences, women's associations on topics such as "Teaching Etiquette", "Etiquette", "Life and Etiquette", "I want to be like my mother";
  - Based on the universal and national values of community youth to organize organizing creative evenings and meetings with well-known artists, lawyers, educators and scientists, labor veterans, health workers in order to develop the spiritual, economic, legal, environmental, labor, aesthetic culture To pay attention to the "Girls' Club" in order to raise the awareness of schoolgirls on universal and national values, as well as their activity in the family and society;
  - Subscribe to newspapers and magazines;
  - Organize roundtable discussions on various topics related to the study of values;
  - Organizing regular competitions among students, which glorify our national traditions.

Today, working with minors is a major part of spiritual work. In the institution develops measures to strengthen legal education among minors. In the institution they should form part of a special working group on crime prevention and develop the following work plan for them.<sup>4</sup>:

- 1) Carry out explanatory work with their parents in order to improve the spiritual health of students;
- 2) Attach experienced and demanding teachers to students with difficult upbringing;
- 3) Provide students with textbooks and brochures related to legal education and exposing crime;
- 4) Organize group roundtables to attract well-known legal scholars to the institution and improve students' knowledge of delinquency and crime.
- 5) "Regular (twice a month) roundtable discussions on "The fight against religious extremism and ideology", "The role of religion in the spiritual development of society and the development of universal values, culture and spirituality".

The most important task in front of us today is to develop the spirit of a free citizen, a free person. The main goal of the work in the field of spirituality is to develop the spirituality of a free citizen

with a strong faith and a strong will. That is, a harmoniously developed person, based on the invaluable heritage of our ancestors with an independent worldview and modern thinking, is to bring up a perfect person.

In conclusion, it should be noted that general secondary education should not only raise and educate students spiritually, taking into account the conditions of the society in which they live and work, but also serve to increase their creative activity. This places a responsibility on those in charge of the general secondary education system.
