"One mother, one motherland" Hoshimov

Praise be to the Merciful and Compassionate Creator, who has chosen Uzbekistan as our heavenly homeland. I consider myself fortunate to have been born in such a free country. I wanted to sing today as a kid of my motherland, Uzbekistan, to share my good intentions and pure thoughts in my heart. ...

What exactly is a homeland? Man and his descendants shed their umbilical cord blood in the homeland, which is a sacred site. We are born and reared by ourselves, from the cocaine that grows here, to its rivers and streams, to its mountains and rocks, from the simple and modest, the diligent and unselfish, to the bold and brave, to the tiniest creature. -everything that has to do with growing up.

Greetings, fellow citizen! Homeland is a place where we all belong! We are all working towards the same goal. Our Motherland's development and the well-being of our people are at stake. It is our most honorable and sacred obligation to faithfully serve our one-of-a-kind country and its wonderful people.

I.A Karimov, our country's first president, once said: "Those who claim that employees in specific fields are solely responsible for maintaining and protecting peace and tranquillity are erroneous. There's a lot of sense in suggesting that you should look after your home since it means a lot to you. No one will bring peace to you unless you fight for it!"

A lovely morning greeted us exactly thirty years ago. The lovely and pleasant air of independence began to blow. In the lives of our people, an entirely new season of living and creating has begun. "Many years and centuries will pass," President Sh. Mirziyoyev said. In our land, new generations will be born, and the brightest immortal page will remain. It has been thirty years since our beloved Motherland, the Republic of Uzbekistan, achieved state independence and embarked on a path of self-development. Our country's independence has provided our people with the opportunity to become true masters of their own fate, to realize their dignity, to live a decent life, and to construct a democratic state and civil society.

The multi-ethnic people of Uzbekistan have proved their talent, strong will, and endurance during the country's independence years, bravely overcoming adversity and embarking on a road of enormous progress. Uzbekistan has evolved and grown over the years, conquering trials, difficulties, and hardships to become the free, peaceful, peaceful, and independent country it is today. It was created as a truly great state, complete with its own law, power, and policies.

It is heartening that our rich history and heritage, as well as historical customs and traditions, have been restored over the years of independence, and that great traits such as kindness, solidarity, and universal ideals have been enhanced. Our country's importance and standing in the globe has greatly increased in a short period of time. In the world, the spirit of trust in Uzbekistan is expanding, as are the ideals of collaboration. Independence's benefits may now be seen in practically every aspect of our life. Prosperity and the joy of creativity can be found everywhere! You're ecstatic to see such a happy and fulfilled existence, dude... Your heart is brimming with joy! When you understand the genuine value of independence, you will consider it a priceless gift! Today, Uzbekistan is embarking on a new chapter in its development.

During the years of independence, much work was done to maintain peace, grow the economy, and raise the living standards of our people on the basis of our country's continual material and spiritual development. There have been such enormous changes in society and in people's minds over the last few years that it's impossible to put into words...

Our country has been incredibly affluent in recent years. Construction of preferential housing for individuals with disabilities, low-income families, young families, separate dwellings for the military, schools, art palaces, gyms, and

health facilities are all examples of this! New Uzbekistan is becoming a country of democratic change, great opportunities and practical work. "Large-scale creative and beautification works are being carried out on the ground.

- Our ancient history is being remembered and our historical monuments are being restored,
- Achieving high results in all areas, including education, sports, due to the creation of a wide range of conditions,
- Medicine is also developing,
- We can cite many such achievements. Most importantly, human dignity is being glorified!

If we all work together to build a new Uzbekistan, if we stand together and shake hands, God willing, we will continue to reach even greater heights! After all, we have no right to slow down in today's fast-paced world! "It should be noted that the construction of a new Uzbekistan is not just a wish, a subjective event, but a political, legal, socio-economic, which has a deep historical basis and exists in our country., is an objective necessity of the spiritual-enlightenment situation itself, in accordance with the age-old aspirations of our people, fully mended," Mirziyoyev said in his speech.

New Uzbekistan is a state of being that is developing on the principles of friendly cooperation with the international community, adhering to universally recognized norms and principles of democracy, human rights, and freedoms, with the ultimate goal of creating a free, prosperous, and prosperous life for our people.

We are now one nation, one nation, and we are making progress toward our ambitious aspirations. We will undoubtedly establish a new Uzbekistan, which is our noble hope and purpose, as long as the immense power bequeathed from our forefathers is alive in our bodies and blood. In every way, Uzbekistan will become a successful and prosperous, free democratic republic.

I am convinced that we will achieve our noble goals as a single people, a single nation, using all our knowledge and experience, intelligence, as a sacred banner of our boundless love and devotion to our motherland. The new Uzbekistan will become a country with strong potential, a worthy reputation, a prosperous and prosperous country in all respects. "

In conclusion, I would like to express my deep gratitude to the First President of Uzbekistan, who brought our free Uzbekistan to independence, and to our esteemed President Shavkat Mirziyoyev Miromonovich, who raised our country to this level, who valued the Motherland and human dignity. Here is my product:

Don't take it easy on yourself, President!

That's all there is to it, people's concerns, concerns.

After all, we didn't get there easily today.

How hard we toiled, how hard we toiled,

You have 4 or 5 children to look after, and you work nonstop.

This is what the future will look like.

You are in motion, in mind, at all times of the day and night.

This equates to 35 million people.

There is neither pleasure nor sleep throughout the day.

That is the nation's future, this nation's future.

You're always on the move, which is a blessing!

Our people, thank God, are calm.

Our tummies are full, and we are idols.

He mentioned us, and he was thinking of us.

There is no one like our president!

Don't take it easy on yourself, President...!
